## **DETAILED ACTION**

### Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 15, 2001 has been entered.

### Election/Restrictions

2. Applicant's election without traverse of Group I (claims 19-21 and 24-27) in the telephone interview of February 4, 2003 (paper no. 25) is acknowledged. Claims 22 and 23 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

## Claim Rejections - 35 USC § 112

3. Claims 19-21 and 24-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 19, line 11, "working flights" is vague as to whether it refers to those previously set forth or to other such working flights, and it is suggested to insert --the--

Art Unit: 3724

before "working" or the like; in line 13, "the cutting guide rails" lacks positive antecedent basis; in lines 13-14, the recitation "movement of the chains along the working flights" is vague and indefinite since it is not clear how the chains can both include the working flights and move relative to them.

In claim 20, lines 4-5, the recitation "configured to secure the cutting guide in a selected position along the working flights" is vague and indefinite because it is not clear as to how the locking mechanism is "configured" to perform the recited function, and because it is not clear how the locking mechanism secures the cutting guide along the working flights since the working flights are part of the chain and thus never move with respect to the cutting guide.

In claim 21, line 3, "between" is vague as to what the lug adjustor is connected, and structural cooperation is not positively set forth for "lug adjustor".

#### **Prior Art**

- 4. Further consideration of the claimed invention with respect to the prior art will be given upon clarification of the claimed invention.
- 5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark Dexter whose telephone number is 703-308-1404. The examiner can normally be reached during normal business hours on Monday, Tuesday, Thursday and Friday.
